Re: Final Preliminary Assessment for  
Wayne Manufacturing  
Cedar Rapids, Iowa  
EPA RCRA ID No. IAD0052772567

Dear Mr. [REDACTED]

The U. S. Environmental Protection Agency (EPA) has completed the Resource Conservation and Recovery Act (RCRA) Preliminary Assessment for the above referenced facility. The purpose of this letter is to transmit to you a copy of the Preliminary Assessment report.

The objective of the Preliminary Assessment is to identify whether or not a release has occurred at the facility. It is not an evaluation of the rate and extent of contamination and does not determine how harmful a release may be to human health and the environment. In the event that this information is needed, EPA will require the facility to perform a RCRA Facility Investigation (RFI). Such requirements are typically imposed either by issuance of a Consent Order or a Permit.

After you review the Preliminary Assessment report, we request that you submit any additional information or comments that you may have to my attention at the letterhead address. EPA will evaluate the need for corrective action at your facility based upon the Preliminary Assessment and any additional information you provide.

If you have any questions concerning the Preliminary Assessment, please do not hesitate to contact me at (913) 551-7631.

Sincerely,

Ken Herstowski
